

## Guy Dubrovski

### VP of AI

Guy Dubrovski leads Machine Learning and Artificial Intelligence at Wylei. He has over 10 years of experience in Software Development, Machine Learning and Systems Integration.

He started his career as part of the Elite Israeli Intelligence Unit 8200, where he was an officer, a team leader and an innovation development manager. In his service, Guy led the development of a large scale system, utilizing advanced NLP and AI that won an award for it's impact on Israeli Security.

Following his service, Guy was the CTO of the venture-backed startup Ivy Mark where he led the development of several products, supporting thousands of paying users. Guy has a B.Sc in Computer Science from the Technion and an M.Sc in Artificial Intelligence from Bar Ilan University.
